

# OVC HTC TA Navigators

*What do they do? How can they help me?*

## WHAT IS A TA NAVIGATOR?

The OVC Human Trafficking Collective (HTC) works collaboratively with field experts, known as Technical Assistance (TA) Navigators, to provide OVC human trafficking service grantees with extensive support and TA during their OVC service award period. TA Navigators offer specialized expertise and are committed to helping grantees think critically about their programs, services, outreach efforts, and more.

## WHAT DOES TA NAVIGATOR SUPPORT INCLUDE?

No question or support need is too big or small—it is highly encouraged that grantees familiarize themselves and commit to working with their TA Navigator to reap the benefits of this exclusive support. See below for examples of support provided by TA Navigators.

“  
*Working with our TA Navigator helped ease our "new grantee" anxiety. Connecting to ask questions, discuss problems, and celebrate victories together was unexpected and great. We're so happy we had this support!*  
”  
*FY 2020 Victim Services Grantee*
